Segoe Sans optical sizes

Segoe Sans is designed with three optical adjustments for different sizes in order to ensure the best reading experience.

At small sizes, the text and forms are more open. At larger sizes, there is less space between letters and the terminals are amplified.

When creating with Segoe Sans Static fonts you will need to select the right optical size in the font picker.

Use the right optical size:

18pt and larger
Segoe Sans Display

9pt to 17pt
Segoe Sans Text

8.5pt and smaller
Segoe Sans Small

Example ramp

Type size	Optical size	Font
40pt	Display	H1 Segoe Sans Display Semibold
24pt	Display	H2 Segoe Sans Display Semibold B1 Segoe Sans Display Regular
16pt	Text	H3 Segoe Sans Text Semibold B2 Segoe Sans Text Regular
10pt	Text	H4 Segoe Sans Text Bold B3 Segoe Sans Text Regular
8.5pt	Small	Caption B3 Segoe Sans Small Regular
